

A luxury villa holiday needn't cost the earth

Mi Casa Tu Casa is proud to be working with the Ibiza Preservation Fund with a focus on preserving the natural beauty of the island through sustainable initiatives. Here are 5 little things you can do this holiday to help:

1 RECYCLING

- Please use the colored recycling bins provided (green = glass, blue = paper & cardboard, yellow = plastics and cans)
- Please then empty these into the large community recycling bins which use the same colors

2 SAVE WATER

- Ibiza suffers from frequent droughts so please use water responsibly
- Save water by taking short showers with decreased flow and turning the tap off while shaving and brushing teeth

3 BUY LOCAL PRODUCE

- See our list of the best places to buy local organic produce so that you can enjoy the real fruits of the island. See house book

4 REDUCE ENERGY CONSUMPTION

- Please turn off the AC when you are not in the rooms and particularly when away from the villa. The rooms only take 2 minutes to cool with the AC on your return. Please also close windows when the AC is on

5 REDUCE PLASTIC

- We provide large strong reusable shopping bags (look under the kitchen sink) so please use these instead of buying plastic bags from the supermarket
- Where possible avoid buying plastic bottles and packets. Glass is much more efficiently recycled

WHAT ARE WE DOING?

We are collaborating with the Ibiza Preservation Fund to champion a sustainable villa holiday market. We want to reach all stakeholders; villa guests, owners, service providers and government bodies. We are starting to work with each villa owner to create a villa-by-villa action plan on how to make their property more environmentally friendly. It doesn't happen overnight, but together we can make a big difference in keeping our island beautiful so that our children's children can enjoy it in the same way we can today.
